HANDY-PADDER

Features

- ◆ Easy Operation
- ◆ Large Capacity
- ◆ Self-Aligning Gravity Load
- ◆ Fast Lock & Release Clamping
- ◆ Table-Top Design
- ◆ Superior Quality - All Steel Construction
- ◆ Stable - Rear Support To Prevent Tipping
- ◆ Self Locking Swivel Table
- ◆ Portable

Portable/Compact & Economical

Put away your bricks, blocks, and boards. The Challenge Handy-Padder design provides a portable and compact table-top padding device for the right price. The convenient turn style base of the Handy-Padder allows the operator to load, clamp and pad from a single position.

Stabilized Base

The Handy-Padder has an extended sheet metal stabilizer designed to eliminate tipping problems when loaded with stock.

Simple 1-2-3 Operation

Ease of operations turns padding service into a value-added profit center.

1- Lock & Load

Lock the removable plate in place. The 8° table slant allows gravity to do all the work of aligning stock and keeping it square. Load up to 8,000 8-1/2" x 11" sheets of 20# bond - even more with smaller sheets.

2- Clamp

After loading is complete, aligned stacks are clamped in just seconds. Place the clamping bar on top of your paper, slide the self-locking, quick-release clamps down to the bar and tighten the screws.

3 - Turn & Pad

Turn the table around and remove the plate for complete access to your padding.

Products Working for You

The Handy-Padder is just one in the line of Challenge products engineered to make your job easier.

Specifications

Maximum Lift Height	16" / 40.6 cm
Maximum Lift Width	17-3/4" / 45 cm
Lift Depth	4" to 13+" / 10 cm to 33+ cm
Capacity Example	8,000 8-1/2 x 11" 20# bond
Overall Base Area	20-15/16" / 53.2 cm
Overall Height	26-3/16" / 66.5 cm
Overall Length	17-1/32" / 43.3 cm
Net Weight (approx.)	50 lbs / 22.7 kg
Shipping Weight (approx.)	55 lbs / 25 kg
